

# Industry Analysis: Household Goods

H1 2023

# Interpreting the Results

The relative weighting analysis derives the Driver Strength for each of the 20 perception diagnostics to the Mindshare and Purchase Intent scales. "Top Drivers" are those diagnostics with Driver Strength (Importance Values) above the median for that Industry. Key Strengths are those diagnostics also with Performance (Diagnostic Score) above the median for that Industry, and Opportunities to Improve have Performance below the median.

**Key Strength:** These are the stronger importance drivers as well as common perceptions for the Industry. These are attributes to amplify in communications / messaging.

**Opportunities to Improve:** These are stronger importance drivers but not commonly associated with the Industry, making them opportunities to focus on and improve. Enhanced investment here will likely yield the largest impact to brands.

**Expected Drivers:** These are weaker drivers but common perceptions of the Industry. Consumers expect a brand to have strong performance in these areas to be able to compete in the Industry, however enhancing focus here will not likely yield a strong impact to the brand.

**Not Relevant:** These are both weaker drivers and less commonly associated with brands in the Industry, therefor are considered least relevant for the Industry

# Recommendation and reliability drive love and purchase of household goods; opportunity to enhance connection

## Top 5 Key Drivers of Mindshare for Household Goods

Among Gen Z (n=675)

1. Recommended
2. Popular
3. Trustworthy
4. Reliable
5. Talked About

Among Millennials (n=1,308)

1. Recommended
2. Popular
3. Reliable
4. Pay Attention To
5. Talked About

Mindshare for household goods is highly driven by word-of-mouth **recommendation**, **popularity**, and brands they can count on to be **reliable** and **trustworthy** (for Gen Z) all of which are considered strengths in the category.

Brands they **talk about** in their social circles and naturally **pay attention to** (for Millennials) are also key drivers of mindshare, yet these attributes are not strongly associated with household goods, exposing opportunities for improvement.

## Top 5 Key Drivers of Purchase Intent for Household Goods

Among Gen Z (n=675)

1. Reliable
2. Trustworthy
3. Recommended
4. Bright Future
5. Gets You

Among Millennials (n=1,308)

1. Reliable
2. Recommended
3. Popular
4. Trustworthy
5. Gets You

Purchase intent for household goods is also driven by brands they can count on to be **reliable** and **trustworthy**, as well as word-of-mouth **recommendation** all of which are considered strengths in the category.

Brands that **get them**, i.e., ones that represent their lifestyles and fit their budgets, are key drivers / opportunities for purchase intent that did not appear as a top-5 driver for mindshare.

# METHODOLOGY OVERVIEW

1

- We used our [Performance Drivers](#) methodology to analyze the importance drivers for both Mindshare and Purchase Intent for an entire Industry, rather than at the individual brand level.
- Only the brand ratings for the top 50% of performers by YScore+ within each Industry were used.
- Region: North America (U.S. & Canada)
- Brand ratings were collected weekly from 1/2/2023 - 7/2/2023 (H1 2023)
- Analyses available for each Industry for:
  - All 13-39-year-olds
  - Gen Z
  - Millennials
- Analyses will be updated 2x per year

2

Performance Driver  
Analysis conducted separately for the following Industries:

- CPG (Food & Beverage) (n=2,952)
- Education Technology (n=2,743)
- Fashion & Apparel (n=10,618)
- Financial Services (n=3,386)
- Health & Beauty (n=4,200)
- Home Improvement (n=2,412)
- Household Goods (n=1,983)
- Intimates (n=2,904)
- Media, Tech, & Entertainment (n=25,320)
- Retail (n=3,182)
- Sport & Leagues (n=1,610)

# Performance Drivers Analysis Variables

YPulse Performance Drivers Analysis use Relative Weight Analysis to identify which of the 20 youth-centric performance diagnostics are most important in moving consumers further down the path of the two relationship scales we measure: Mindshare and Purchase Intent.

## Mindshare Scale

Please tell us how well you know each of the following brands.

- I have never heard of this brand
- I have heard of this brand
- I am familiar with this brand / know about this brand
- I have bought from or financially supported this brand
- I am loyal to this brand
- This brand is one of my favorites

## Purchase Intent Scale

How likely are you to buy or to use the brand in the future?

- Very Unlikely
- Somewhat Unlikely
- Somewhat Likely
- Very Likely
